

**Clark University
College of Professional
and Continuing Education**

**Master of Science in
Information Technology**

Why MSIT?

- The MSIT program develops skills required for today's jobs.
- According to the Bureau of Labor Statistics:
 - “General and operations managers will add the most new jobs, 363,000 by 2010... **Management analysts** also will be one of the fastest growing occupations in this group... with **job increases of 28.9.**”

Why MSIT?

- Demand for highly skilled technology professionals continues to grow.
- **Today's managers must understand that each technical decision is also a business decision.**
- MSIT Graduates are grounded in the issues of modern technology management: ethics, legal and financial constraints, project management, change management and the leadership and communication skills necessary to move an organization forward effectively.

Why MSIT?

- The curriculum balances **state-of-the-art technical proficiency with managerial and communication skills**
- The MSIT program teaches students the strengths and weaknesses of each technology, how all of the technologies interface, and the ability to **envision the totality of this exciting new industry.**

Why Clark?

- Instructors have hands-on experience to teach our courses.
- **Such experience is a major advantage when combined with discussion sessions that bring out all the dimensions of of an optimized business/ technology solution.**
- Up-to-date facility at (GMC) Graduate Management Center in Framingham offers both “wireless” and T-1 line access with top of the line computers and software.

Why Clark?

- **Customization to Personal Goals:**
MSIT curriculum allows students to tailor the degree to custom fit their individual aspirations.
- **Advisement Always Available:**
Receive personal attention to their concerns and prompt responses to their questions from the day they inquire into the MSIT program through the day they graduate from the program.

Why Clark?

- **"Rolling" Admissions:**

Students may apply for matriculation into the program at any time during a calendar year.

- **Internship Experience (links the classroom to the marketplace):**

A formal internship is offered to MSIT students with less than three years' full-time professional work experience. Interns are placed in carefully selected, mutually-agreed-upon sites where they engage in the full range of duties assigned to entry-level employees.

Why Clark?

- **Courses Offered in Metro-West:**

More convenient ; is within easy reach of both Exit 12 of the Massachusetts Turnpike and Exit 11 A of Interstate Route 495.

- **Two-course "Sampler":**

Students who want to sample the program before applying formally may take up to **two courses** to test the fit of the curriculum with their personal and professional needs and aspirations.
